Safety Reminder

Earthquake

Know the safest places to duck, cover, and hold, such as under sturdy desks and tables

Fire

Know your exits, escape routes, and evacuation plan. If safe to do so, use your compliant fire extinguisher. Exit the house/building, and call 911

Active Shooter

Get out, hide out, take out, and call 911

Medical Emergency

Know who can perform first aid and CPR. Call 911 if you're alone or share your location with the call leader to send help. If you have an AED, ensure you and others in your household know where it's located and how to use it.

Psychological Safety

- ✓ I'm cared for
- ✓ People have my back and I have theirs
- ✓ It's safe to take risks
- ✓ New ideas are welcome
- ✓ I practice self-care

Ergonomics

- ✓ Practice **30/30** (every 30 minutes, move & stretch for 30 seconds)
- ✓ Ensure proper ergonomics

Emergency Planning

- ✓ Update emergency contacts
- ✓ Create/update a personal emergency preparedness plan

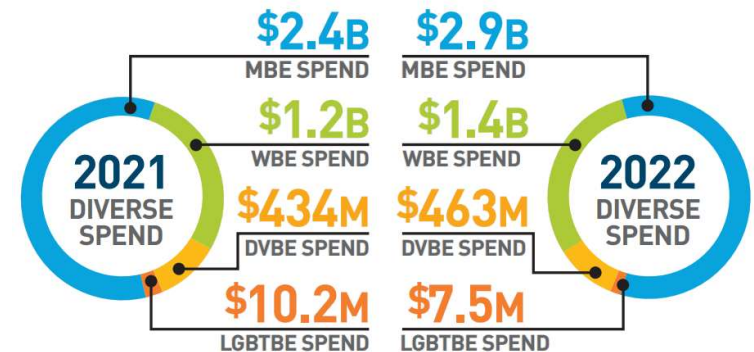

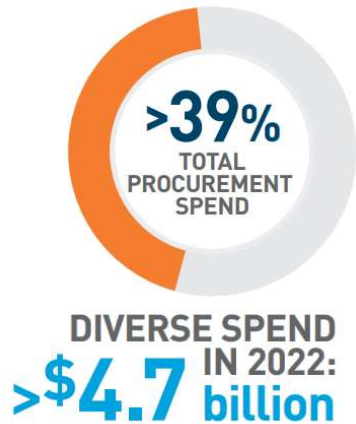

COVID-19

- ✓ Maintain at least 6' distance where possible
- ✓ Wear your mask
- ✓ Wash hands frequently

2022 Supplier Diversity Performance

SUPPORTING PEOPLE, PLANET AND CALIFORNIA'S PROSPERITY

In 2022, PG&E spent nearly \$4.8 billion or 39.3% with diverse suppliers – the highest dollar spend in the history of PG&E's Supplier Diversity program

What is TAP Learning Management System (LMS) ?

The **PG&E TAP Learning Management System (LMS)** provides you access to online courses from industry experts that will give you insights, best practices, and real-world examples you can use to **grow your business' capabilities.**

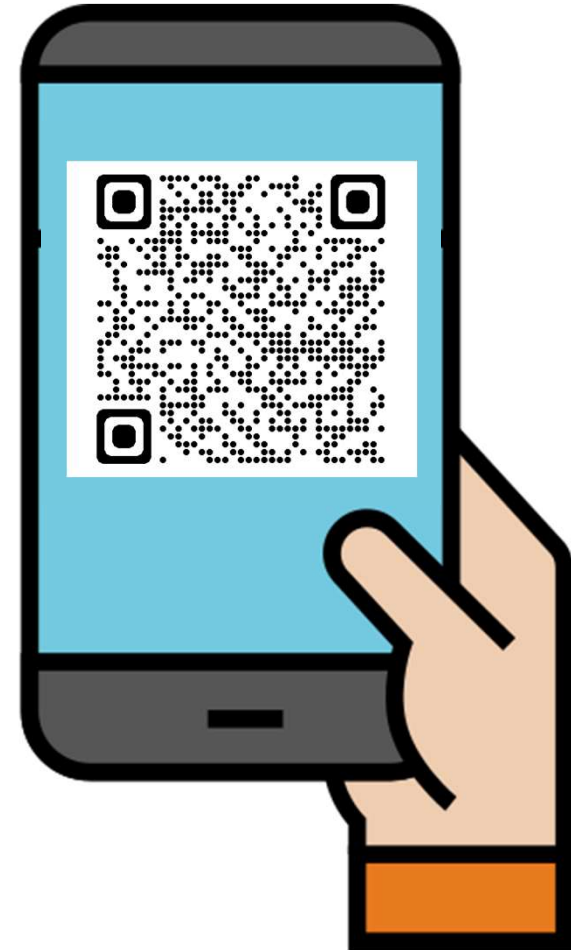

The courses are interactive and provide thought-provoking questions and time to reflect, along with workbooks and templates you can use to react, plan, and develop your ideas and your business.

TAP PROGRAM OVERVIEW

About PG&E's Technical Assistance Program (TAP)

PG&E's TAP, in collaboration with community partners, provides a broad range of educational and capacity-building initiatives to businesses of all sizes. PG&E understands that an important part of supporting businesses is offering the tools and technical assistance needed to succeed in today's changing marketplace.

New TAP initiatives are developed, and existing initiatives are refreshed annually to reflect current trends. PG&E is pleased to offer this online learning management system to train and educate the small and diverse business community.

About Pacific Gas and Electric Company (PG&E)

PG&E, incorporated in California in 1905, is one of the largest combined natural gas and electric energy companies in the United States. Based in San Francisco, the company is a subsidiary of PG&E Corporation.

There are approximately 23,000 employees who carry out Pacific Gas and Electric Company's primary business—the transmission and delivery of energy. The company provides natural gas and electric service to approximately 16 million people throughout a 70,000-square-mile service area in northern and central California.

PG&E and other energy companies in the state are regulated by the California Public Utilities Commission. The "PG&E" was created by the state's legislature in 1995.

ARTÉMIA
THE BASICS OF CRISIS COMMUNICATIONS

Why Crisis Communications?

Not having a crisis communications plan in place could be devastating for your business. Whether it is something small like a bad review, or something extreme like a natural disaster, preparing ahead of time allows you to:

- Identify potential threats more easily
- Respond to a crisis immediately and effectively
- Prevent panic by utilizing an established hierarchy and protocol that all employees are familiar with
- Shape the story by being able to quickly quash misinformation
- Minimize damage to your company's reputation
- Mitigate the negative impact a crisis could have on your bottom line

Environmental Sustainability Module 1

Introduction to Sustainability

Course Workbook

Worksheets to complete lessons described in learning video and other resources.

of Sustainable Practices

able practices you may already practicing that provide benefit to your business. In creating your own sustainable practices, you should also take into consideration your company's mission, vision and values. List your values also provide opportunities to align with sustainable activities.

At your company, place a check mark in the box next to those activities in the left-hand column that you are currently practicing. Place a "*" for items you may not be doing right now, but could easily add. Then build on the list by adding activities you are not currently practicing (or could do) to achieve the business benefits listed in the right-hand column.

Lighting	Reduce costs, conserve energy
Costs	Reduce costs, conserve water
Waste	Reduce waste
Program	Customer loyalty
Environmentally friendly	Market differentiation
Energy efficient	Competitive advantage
Employee innovative	Employee engagement
Service	Innovation in product design or service delivery
Industry associations, sustainability	Increased productivity
Energy efficient with electric	New business opportunities
	Increased efficiency
