

Connecting AMERICA

Begins May 2026

The VIB Network is hitting the road to connect with the Veteran business community nationwide.

Through VIBN Connecting America, we will travel across the country with the support of our VIBN trusted Corporate sponsors to interview and showcase Veteran-owned businesses, highlighting who they are and where they operate. We're bringing the VIB Network directly to their front door to share their stories, amplify their voices, and learn about their businesses.

Along the way, we'll highlight interesting facts, valuable programs, and critical resources that support Veteran-owned businesses state to state. We'll learn and explore more about what's in place to support small businesses, through the lens of the Veteran Business Community.

This nationwide tour will be shared across all VIB Network social media platforms and amplified through local and national media outlets.

No other Community-Based Organization has done anything like this! So join us on this journey...

Show your support for the Veteran business community
